In re Application of

Silvus Technologies, Inc.
10990 Wilshire BLVD., Suite 1500
Los Angeles, California 90024

To operate in the 2360-2390MHz Telemetry Band in Desert Center, California.

ATTN.: Microwave Branch

Silvus Technologies, Inc., hereby requests Special Temporary Authority (STA) to operate within the 2360-2390MHz telemetry band pursuant to Section 21.25 of the Commission's Rules. Silvus Technologies, Inc. requests that the Commission grant it temporary authority to operate on the frequency centered at 2380MHz with a 20MHz bandwidth from February 25, 2019 through March 25, 2019 with intermittent usage. As explained below, Silvus Technologies, Inc., is filing an STA request to test developing features for new microwave technologies in a MANET / MIMO configuration along Interstate 10 near Desert Center, California. Google Earth image attached below for reference. Silvus Technologies, Inc., submits that there are extraordinary circumstances warranting a grant of the STA request.

Silvus Technologies, Inc., is developing an upgraded feature set for their new microwave emission technologies with relation to propagation, data throughput, vehicle integration and impact utilizing a Sear Technologies IP Camera as a sensor in a Mobile Ad-hoc Network. Due to the extreme frequency congestion in Southern California, Silvus Technologies, Inc., requests the use of this channel.

Silvus Technologies, Inc., certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for the 2.3GHz band would serve the public interest by enabling Silvus Technologies, Inc., to demonstrate the reliability of their emission scheme and feature set as it relates to the Sear Technologies IP Camera in a wireless MANET / MIMO configuration. The proposed service would enable demonstration of the Streamcaster SC4400 transceiver / antenna array in a terrestrial exercise.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: Silvus Technologies, Inc.
Address: 10990 Wilshire BLVD., Suite 1500
Los Angeles, California 90024

Type and Manufacturer
Of Equipment: Streamcaster SC4400

Power Output: 8W

ERP: 125W

Emission: 20M00D7W

Frequency: 2380.0MHz, 20M00D7W @ 125W TERRESTRIAL

Area of Operation: 50Km

Coordinates: N 33 37 37.25
W 115 19 55.31

Antenna Height: 6' AGL
Antenna: Omni
Antenna Gain: 12dBi
Dates of Operation: February 25, 2019 – March 25, 2019
(Intermittent Usage during these days)

Silvus Technologies, Inc., requests an STA to operate on the above-referenced frequency for a period not to exceed six months. No application for regular authorization will subsequently be filed.

Silvus Technologies, Inc., certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853(a).

Should you have any questions regarding this matter, please contact, John Winch, by telephone 626 676 1470.

Respectfully submitted,

By: John Winch
Frequency Coordinator
