Subject: Request for Info - STA File #0401-EX-ST-2013

Message:

What are the minimum and maximum altitudes that you will be transmitting from?

Minimum altitude = 18 meters above sea level. This is the elevation of Long Beach airport, where the two aircrafts carrying the radio transmitters will take off

Maximum altitude = 3500 meters above sea level. This is the maximum altitude of the aircrafts when in their loitering orbits.
