In re Application of

Silvus Technologies, Inc.  
10990 Wilshire BLVD., Suite 1500  
Los Angeles, California 90024

To operate in the 2360-2390MHz Telemetry Band in Tampa, Florida.

ATTN.: Microwave Branch

Silvus Technologies, Inc., hereby requests Special Temporary Authority (STA) to operate within the 2360-2390MHz telemetry band pursuant to Section 21.25 of the Commission's Rules. Silvus Technologies, Inc. requests that the Commission grant it temporary authority to operate on the frequency centered at 2380MHz with a 20MHz bandwidth from July 10, 2021 through July 16, 2021 with intermittent usage. As explained below, Silvus Technologies, Inc., is filing an STA request to demonstrate new microwave technologies in a MANET / MIMO configuration for the National Technical Investigator's Association exhibition at the Tampa Convention Center in Tampa, Florida. Silvus Technologies, Inc., submits that there are extraordinary circumstances warranting a grant of the STA request.

The National Technical Investigator's Association has invited Silvus Technologies, Inc., to demonstrate new microwave emission technologies utilizing an Obscura IP Camera as a sensor in a Mobile Ad-hoc Network. Due to the extreme frequency congestion in the Tampa area, Silvus Technologies, Inc., requests the use of this channel.

Silvus Technologies, Inc., certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for the 2.3GHz band would serve the public interest by enabling Silvus Technologies, Inc., to demonstrate the reliability of their emission scheme as it relates to the Obscura IP Camera in a wireless MANET / MIMO configuration. The proposed service would enable demonstration of the Streamcaster SC4400 transceiver / antenna array in a terrestrial exercise. Silvus Technologies, Inc is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name:	Silvus Technologies, Inc.
Address:	10990 Wilshire BLVD., Suite 1500 Los Angeles, California 90024
Type and Manufacturer Of Equipment:	Streamcaster SC4400
Power Output:	4W
ERP:	8W
Emission:	20M00D7W
Frequency:	2380.0MHz, 20M00D7W @ 8W TERRESTRIAL
Area of Operation:	5Km

Coordinates: N 27 56 30.76  
W 082 27 23.06

Antenna Height: 6' AGL

Antenna: 2dBi Omni

Antenna Gain: 2dBi

Dates of Operation: July 10, 2021 – July 16, 2021  
(Intermittent Usage during these days)

Silvus Technologies, Inc., requests an STA to operate on the above-referenced frequency for a period not to exceed six months. No application for regular authorization will subsequently be filed.

Silvus Technologies, Inc., certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853(a).

Should you have any questions regarding this matter, please contact, John Winch, by telephone 626 676 1470.

Respectfully submitted,

By: John Winch  
Frequency Coordinator

cc: Wayne Morris, AFTRCC
