In re Application of

Silvus Technologies, Inc.
10990 Wilshire BLVD., Suite 1500
Los Angeles, California 90024

To operate in the 2360-2390MHz Telemetry Band in Fort Worth, Texas.

ATTN.: Microwave Branch

Silvus Technologies, Inc., hereby requests Special Temporary Authority (STA) to operate within the 2360-2390MHz telemetry band pursuant to Section 21.25 of the Commission's Rules. Silvus Technologies, Inc. requests that the Commission grant it temporary authority to operate on the frequency centered at 2380MHz with a 20MHz bandwidth from July 08, 2019 through July 26, 2019 with intermittent usage. As explained below, Silvus Technologies, Inc., is filing an STA request to demonstrate new microwave technologies in a MIMO / MANET configuration at Elbit Systems of America, LLC headquarters in Fort Worth, Texas. Silvus Technologies, Inc., submits that there are extraordinary circumstances warranting a grant of the STA request.

Elbit Systems of America, LLC has invited Silvus Technologies, Inc., to demonstrate new microwave emission technologies with regard to data coherency, propagation, data throughput, vehicle integration and impact utilizing various IP sensors and cameras for US Customs and Border Protection. Due to the extreme frequency congestion in the Fort Worth area, Silvus Technologies, Inc., requests the use of this channel.

Silvus Technologies, Inc., certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for the 2.3GHz band would serve the public interest by enabling Silvus Technologies, Inc., to demonstrate the reliability of their emission scheme as it relates to various IP sensors in a wireless MIMO / MANET configuration. The proposed service would enable demonstration of the Streamcaster SC4200 transceiver / antenna array in a terrestrial exercise. Silvus Technologies, Inc is in the process of obtaining the consent of the relevant frequency coordinators for this project, including AFTRCC. AFTRCC has indicated its intent to forward the results of the coordination to the Commission.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Applicants Name: Silvus Technologies, Inc.
Address: 10990 Wilshire BLVD., Suite 1500
Los Angeles, California 90024

Type and Manufacturer
Of Equipment: Streamcaster SC4200

Power Output: 8W

ERP: 25W

Emission: 20M00D7W

Frequency: 2380.0MHz, 20M00D7W @ 25W

Area of Operation: 35Km

Coordinates: N 32 49 48.43
W 097 23 00.86

Antenna Height: 50' AGL

Antenna: 2dBi Omni

Antenna Gain: 5dBi

Dates of Operation: July 08 through July 26, 2019
(Intermittent usage during these days)

Silvus Technologies, Inc., requests an STA to operate on the above-referenced frequency for a period not to exceed six months. No application for regular authorization will subsequently be filed.

Silvus Technologies, Inc., certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C § 853(a).

Should you have any questions regarding this matter, please contact, John Winch, by telephone 626 676 1470.

Respectfully submitted,

By: John Winch
Frequency Coordinator

cc: Wayne Morris, AFTRCC
