Subject: Request for Info - File #0713-EX-PL-2015

---

Message:

The requested calculations have been uploaded in a revised Attachment B. The revised Attachment B, which supersedes the Attachment B in the original Description of Operation, contains two spreadsheets as one repeater will have a 100 foot cable and one repeater will have a 50 foot cable at each location. The output power and ERP in the application have also been updated.
