IB has no objection to the Southwest Research Institutes STA, as long as they have coordinated with NTIA.

Shahnaz,

Attached is a coordination for the subject STA. The requested start date is **05/01/2006**, which is out of the question. I would like comments back by **COB 05/12/2006**, if possible. If not, let me know. This STA request is for development of a telemetry system for the Army between **05/01/2006** and **10/31/2006**.
