Subject: ITU Cost Recovery Fees for the “GNSS Navigation and Occultation Measurement Satellites” (GNOMES) network.
References: FCC experimental application file number: 0011-EX-CN-2019

Dear Ms. Dortch,

Space Sciences and Engineering, proposed operator of the subject network, is aware that as a result of actions taken at the International Telecommunication Union’s 1998 Plenipotentiary Conference, and subsequently modified by the ITU Council in 2001, 2002, and 2004, processing fees will now be charged by the ITU for satellite network filings. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU. The applicant hereby states that it is aware of this requirement and accepts responsibility to pay any Cost Recovery fees associated with this application regarding the GNOMES network.

Invoices for such fees and ITU correspondence and filings should be sent to the point of contact specified below:

Kelly Wells, Senior Director of Finance
Space Sciences and Engineering (dba PlanetiQ)
