Subject: Request for Info - File # 0011-EX-CN-2019

---

Message:

Doug,

In response to your question:

For our experimental license, Space Sciences and Engineering is requesting to transmit at a center frequency of 8.260 GHz, as stated in Tables 1.1-1 and 2.4-1 in the Narrative, as well as on page 9 of the Narrative, and page 2 of Exhibit B: NTIA Space Record Data Form. Our downlink signal bandwidth will occupy, at maximum, 20 MHz.

If further detail is needed, or if another frequency is preferred, please advise.

Regards,

Erin
