Re: Updated Ground Station List (Ref: ELS File No. 0734-EX-CN-2021, Memo dated 6 March 2023)

Dear Mr. Young,

I'm following-up with our GNOMES-3 experimental license submission, Filing Number: 0734-EX-CN-2021; Filing Reference: USA2022-51112 Station/Satellite Name: GNOMES-3

We are adding the following ground station antennas for the GNOMES-3 satellite:

- KSAT Punta Arenas 11.5m
- KSAT Inuvik 13m (Downlink only for GNOMES-3)
- Swedish Space Corporation North Pole, AK 13m (Downlink only for GNOMES-3)
- Swedish Space Corp Western Australia 13m (Downlink only for GNOMES-3)

The additional antennas have been discussed with federal operators (USAF, USSF, NOAA, NASA), who have informally concurred.

Best Regards,
