Subject: Request for Info - File # 0176-EX-CN-2018

Message:

Doug,

This is to confirm that we are only requesting a single frequency for File #0176-EX-CN-2018 (THEA) and for File #0220-EX-CN-2018 (BRIO). 2288.5 MHz is acceptable, or any other 1MHz segment within the 2220-2290 MHz band.

The Local Time of the Descending Node is 10:30 AM.

Our last day to integrate BRIO and THEA on the Spaceflight platform is August 2nd. The actual launch of SpaceX SSO-A mission is scheduled for 30 September. Without an FCC space station license or an authorization to launch by August 2, we will not be able to get our satellites into orbit. I would appreciate anything you can do to expedite the processing of our license applications.

Kind regards,
Dino Lorenzini
President, SpaceQuest
