Subject: Request for Info - File # 0095-EX-CN-2017

Message:

Mr. Young,

I am contacting you to provide an update on the RADSat project. As you know, I sent in both the ODAR and the SpaceCap file to the FCC in early December. The SpaceCap file is not complete, and I need assistance from the FCC in fixing the present errors. I will be bringing the ITU cost recovery letter to the attention of the project manager and start working to get a letter signed and submitted to the FCC. That should be done quite shortly. I have looked at online examples of the letter, and I am assuming that the examples are still valid. Please let me know if otherwise. Also, please let me know of any other files we need to provide to the FCC. I cannot work more on the SpaceCap file until I receive some clarifications from the FCC regarding inputs. Please let me know if you have any questions about the project.

Sincerely,

Michael Weinhoffer
