**Experimentation Description**

- a. **Proposed experimentation:** SpiderCloud Wireless, Inc, a startup corporation based in San Jose, CA is engaged in design of 3G /4G Femto cell wireless products for enterprise applications. This STA is for demonstrating our equipment in a conference being held at Portola Hotel, 2 Portola Plaza, Monterey, CA 93940 from 2/3/15 thru 2/5/15. The equipment will be compliant to 3GPP specifications for LTE Band 13 and LTE Band 4.
- b. **Objective:** To demonstrate SpiderCloud Wireless products to some of our exclusive customers.
- c. **Contribution:** Indoor femto cells have the potential to offload local voice and/or data traffic from the outdoor macro cellular system. Work will be done to test and optimize operation of the femto cell system to provide higher speed data than previously available.
