Form 442 Question 7: Experimentation Description

- a. **Proposed experimentation:** SpiderCloud Wireless, Inc, a startup corporation based in San Jose, CA engaged in design of 3G Femtocell wireless products for enterprise applications and would like to radiate/test at its San Diego branch facilities located 10875 Rancho Bernardo Rd San Diego, CA 92127. The equipment will be compliant to 3GPP specifications for LTE in band 12.
- b. **Objective:** To test multiple vendor portable equipment interoperating with the femtocell base station under development.
- c. **Contribution:** Indoor femtocells have the potential to offload local voice and/or data traffic from the outdoor macrocellular system. Work will be done to test and optimize operation of the femtocell system to provide higher speed data than previously available.
