Subject: Request for Info - File # 0253-EX-CN-2020

Message:

It is against Experimental Licensing Branch policy to license frequencies already authorized on regular FCC licenses. Also, if the already licensed frequencies were to remain in this application, we would be obligated to coordinate them with NTIA, most likely causing an increase in processing time. We request that they be removed from this application. Also, the inclusion of these frequencies in this application leads us to question whether the application is supporting any Part 25 commercial for-profit service. If so, you should request an STA from International Bureau rather than requesting experimental authority.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 07, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
