Sun 27-Aug □ 38-14-36N 122-27-42W □ Infineon Raceway, Sonoma, CA

Sun 10-Sep □ 41-28-25N 88-03-01W □ Chicagoland Speedway, Joliet, IL

As to the justification for the number of units requested, that is the number of mobile (rover) units to be installed in each race car, plus the base station. There will not be 60 rovers in operation at once, but some number less than that. That is the total number of rovers now available for installation in the race cars.
