Message:

Pursuant to §0.459(b) see our response below for each item

(1) Identification of the specific information for which confidential treatment is sought;

Type of waveform being employed and the nature of the research and experimentation being performed.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission;

Experimental license for motion target indicator radar

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged;

This work is regulated by the State Department under ITAR regulations.

(4) Explanation of the degree to which the information concerns a service that is subject to competition;

The product being produced will be sold commercially and is subject to competition from other vendors.

(5) Explanation of how disclosure of the information could result in substantial competitive harm;

The main harm is that the disclosure of information could provide the enemies of the US information with regards to unique technology that is being developed for the Dept. of Defense.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure;

This type of information is that released in any other public forum or communication medium.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties;

No, it is not available to the public.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure; and

This information should be confidential as long as indicated by the State Department.

(9) Any other information that the party seeking confidential treatment believes may be useful in assessing whether its request for confidentiality should be granted.
