Form 442

Question 4: Government Project Description.

The purpose for the requested license will be in support of government contract # HC1047-05-D-4005, which includes the construction of a tracking radar.

The unit which will be the focus of the experimental testing is a medium power FM/CW Doppler radar system capable of hyper accurate tracking of ballistic targets as well as aircraft.

It will operate with separate TX/RX phased array panel antennas mounted to a tracking pedestal capable of a 40 deg/sec track.
