

March 20, 2000

Federal Communications Commission
Experimental Licensing Branch
445 12th Street SW
Washington, DC 20554

Gentlemen:

We just received the new license for Station WB2XGO, File Number 0034-EX-PL-2000, and found that one of the frequencies shown is not the one we had requested in our application.

I have attached a copy of the application we submitted to you. As you can see, we had requested 401.88850 MHz as one of the frequencies, but it has been entered on the license as 401.88550 MHz. Therefore, we request that that frequency be corrected and a new license be issued to us.

The frequency shown as 401.85850 MHz is correct.

If you have any questions, please call Kayleen Burkhalter at (916) 657-6174.

Sincerely,

GLEN S. NASH
CSA II
