Subject: Additional Information Request

---

Message:

Dear Nimesh,

I apologize for the delayed response.

1) The FAA coordination is correct. The Minimum Altitude will be 1500 feet and the Maximum Altitude will be 10000 feet. I have updated our narrative and submitted it for your review.

2) The CBRS frequencies 3550-3700 MHz have been notched out.

Thank you for your attention.

Sincerely,

Scott Spear
