

FCC Form 442 Question 14

Has applicant or any party to this application had any FCC station license or permit revoked or any application for permit, license or renewal denied by this Commission?

Answer = Yes

File 0305-EX-CN-2017, Application Dismissed Without Prejudice.

The Commission was unable to grant the application based on technical concerns related to tracking the proposed satellites in the application. The FCC granted a later application by Swarm to communicate with the aforementioned satellites for the sole purpose of collecting orbital and tracking data (see File 1140-EX-ST-2018, granted August 24, 2018).
