Subject:

Request for Info - File #0623-EX-PL-2006

---

Message:

I had read section 8.3.28

I am not to clear where I was suppose to add this.

- 1 - Individual authorized Pat Brown
- 2 - I filled out the form indicating the L1 and L2 band operation.
- 3 - I do know what is required here except I have indicated the two bands that are to use.
- 4 - Okay.
- 5 - Yes the area is security locked through a badge to restrict access.
- 6 - This is a fixed location.
- 7 - The hardware from NavTechGPS only radiates a 100 feet. This was given to me in a excel spreadsheet.
- 8 - Would an email indicating activity within our lab be sufficient.
- 9 - It is under limited activity in testing the use of the GPS information.
- 10 - A stop buzzer will be added to control the repeater.
