Re: TCOM, L.P., Application for New
Experimental Station License,
Elizabeth City, NC, Area,
File No. 4856-EX-PL-95

amendment to

Dear Mr. Caton:

This will supplement the above-referenced application to report the following government contract number in response to Question 7:

F-19628-93-D-0027

This is a contract between the Department of Defense (Navy) and MacDonald Douglas Corp., under which TCOM will be acting as a subcontractor. The testing program is scheduled to commence in mid-July, 1995.

In addition, the application should be supplemented to request authority to utilize three 20 MHz channels in the 1990-2110 MHz band for mobile-to-base communications purposes. This request is in addition to the frequencies currently specified in the application in order to provide additional downlinks frequencies between the tethered aerostat and ground base station. The particulars of operation for these frequencies are as follows:

Frequency (MHz)		Power		Emission	Modulating Signal	Bandwidth (KHz)
(A)	(B)	(C)	(D)	(E)	(F)	(G)
1990-2110	10.8 dBw	15.8 dBw	MEAN	14MF2DBN	FM	20 MHz

Page 2

For operational purposes, desirable that the three channels be spaced as far as possible from each other. Accordingly, the following frequencies are requested:

1990.0 MHz
2050.5 MHz
2101.5 MHz

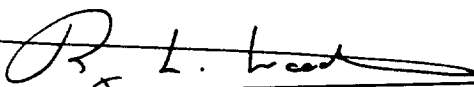

If one or more of these frequencies is not available, the following substitutes are requested:

2084.5 MHz
2067.5 MHz
2033.5 MHz
2016.5 MHz

If there are any questions concerning this request, please contact the undersigned.

Respectfully submitted,

WILKES, ARTIS, HEDRICK & LANE,
Chartered
