

**DESCRIPTION OF *PRO FORMA* TRANSACTION
AND RELATED FCC APPROVALS**

Pursuant to Section 5.79(a) of the FCC's rules, 47 C.F.R. § 5.79(a), this application requests FCC approval of the *pro forma* transfer of control of Thales Avionics, Inc., d/b/a Thales InFlyt Experience ("Thales InFlyt Experience"), which holds an experimental license, call sign WI2XCN. Currently, Thales InFlyt Experience is directly and wholly owned and controlled by Thales Holding Corporation, which in turn is directly and wholly owned and controlled by Thales USA, Inc. ("Thales USA"). Thales USA is directly and wholly owned and controlled by Thales S.A., a Société Anonyme organized under the laws of France that is publicly traded on the Euronext exchange. As the result of an internal restructuring, Thales Holding Corporation will dividend to Thales USA all of its interest in Thales InFlyt Experience, and Thales USA will become the direct 100 percent owner of Thales InFlyt Experience. Thus, the only change in the ownership or control of Thales InFlyt Experience will be the removal of its current direct owner. The removal of a holding company from the ownership chain of a licensee with no other change in the ownership or control of licensee is a "corporate reorganization which involves no substantial change in the beneficial ownership of the" licensee.¹

This *pro forma* transaction also involves one satellite earth station authorization, call sign E170068, held by Thales Avionics, Inc., and one private wireless license, call sign WNZU403, held by Thales Communications, Inc., also a subsidiary of Thales USA. An application to transfer control of call sign E170068 (IBFS File No. SES-T/C-20171211-01326) was filed on December 11, 2017 and was deemed granted pursuant to Section 25.119(i) of the FCC's rules, 47 C.F.R. § 25.119(i) on December 12, 2017. An application to transfer control of call sign WNZU403 (ULS File No. 0008023430) was filed on December 11, 2017 and was consented to on December 14, 2017.

Grant of the instant application is in the public interest because it will enable Thales USA to efficiently restructure its ownership of its subsidiaries that hold FCC licenses and authorizations.
