Washington, DC. 20554

Dear Mr. Wright

This is an amendment to Trimble Navigation's "APPLICATION FOR NEW OR MODIFIED RADIO STATION AUTHORIZATION UNDER PART 5 OF FCC RULES ..." (FCC form 422), dated January 13, 1992.

An entry on Page 1 of the form, Section 4, column F says that the pulse repetition rate is:
500 KPPS,
the true rate is a maximum of
35 PPS.

We request that our application be modified to reflect this fact.

Thank you,

Edmund Butler
