OK on add per D.H.*

Don, I would like to consolidate all the Trimble-INMARSAT licenses under this one. Pse mark up the license to show what you should have, including the two new ones under 5512-EX-PL-96. In the future, add new terminals to this license by filing a 442 to modify KA2XHK. Also, for your information, we grant these for two years even though the COMSAT waivers are only good for 6 months at this time. Our International Bureau is considering a blanket special temporary authority for these INMARSAT uses.

Also I got a call from a Christie Druchez (sp?) who may be responding to my earlier call. If so, tell her I've gotten in touch with you.
