Subject: Request for Info - File # 0008-EX-CM-2020

---

Message:

The purpose of the modification to the license is to update the contract information due to the recent award of a new SBIR for counter swarm technology, and to add the Eglin AFB area as an authorized location to emit. TSC is planning to attend the Apollyon 2020 test event this year which is held at Eglin AFB, and is required to obtain an FCC license to emit. Thank you, and if you have any questions, please contact me at [josiah.mullins@tsc.com](mailto:josiah.mullins@tsc.com).
