Date: September 18, 2014

Subject: FCC File# 0815-EX-ST-2014

Message:

The experiment will provide a single TRX GSM network operating on a standard ARFCN in the 900MHz band. The test (voice and text) will be conducted in a lab environment at the Raytheon facility. The user equipment that will be used to execute the tests are Nokia 1100 handsets.

During the experiments, the following contacts will be reachable for any issues:

Tecore Networks
Customer Response Center
Phone: 410-872-6300
E-mail: crc@tecore.com
