Response to questions asked in correspondence.

1) After careful consideration we have decided to change our requested frequency bands from 494-505 kHz and 525-535 kHz to 495-510 kHz. Can we modify our current application to make this change or do we need to file a new application?

2) The Department of Defense point of contact is: Sam Osofsky, phone number: 240-373-5080.
