Subject: Change of staff at Telecis Wireless

Dear OET Staff Member,

I did a search on your web site under the call sign WD2XRA, our company name and it's former address to find our FRN and request a the following changes to our station license.

1. Change of address
2. Reduce our profile from an external antenna to over the air testing within the building (Similar to WiFi)
3. Expand the frequency range to cover 3.300 GHz to 3.900 GHz.

Item 3 is optional and can wait for approval if necessary.

Since I was unable to find this information through the web site, and since the person who did the original filing is no longer with the company I have no way to determine the original FRN number or if we ever had one issued. So, I am contacting you via e-mail.

File Number: 0138-EX-PL-2005
Call Sign: WD2XRA
Applicant Name: TeleCIS Wireless, Inc.

Previous Address:
2903 Bunker Hill Lane Suite 210
Santa Clara, CA 95054

New Address:
42 West Campbell Avenue Suite 202
Campbell, CA 95008

FCC Public Notice, Report No. 395, released November 14, 2006 notes our station license was issued.

Thank you for your help,
Lou Janis
