Subject: WA2XGG renewal and amendment

Carl,

Thanks for your time on the phone earlier. As I mentioned before, we filed a renewal for WA2XGG on October 21, as it expires Dec. 1. It appears now, however, that we need to amend the license as well and add an Inmarsat A test terminal to the license. This terminal was originally on the license, but was mistakenly dropped at some point.

As you requested here are all of the specs that I have for the Inmarsat-A terminal:

Number of Terminals: 1
Manufacturer & Model: Magnavox MX2400
Inmarsat Standard: A
Frequency: 1626.5-1646.5 Mhz
Power: 36 dbw
Modulating Signal: FM
Necessary Bandwidth: 25 KHz
Antenna type: Directional

Terminal Location: 1101 Wootton Parkway, 10th Floor
Rockville, MD 20852

Coordinates: 39.04.06 North Lat, 77.09.42 West Long

Please let me know if you have any questions about this matter. Thanks again and I hope you have a great Thanksgiving.

Best regards,
Rob Swanson
