Message:

I just amended the application to delete the second band and to add the emission designator 200KGXW.

Let me know if you have any further questions. Thanks.

I"ll go back and amend the app. No we don't want the entire band, we are just using a 200 KHz channel with 1968.4 as the transmit frequency and 1888.4 as the receive frequency. This is what we"ve been given by the PCS licensee, T-Mobile.

Thanks.
