Subject: 0141-EX-CN-2019 pre-coordination data request

---

Message:

I had applied for a 24 Experimental License when I had filed my application in May. The License Grant came back with less than 3-months validity. Is there a reason the license was not granted for the 24 months requested or is there an error on the grant?

How would I go about extending the validity of the license grant?

Thank you.
