Subject: Request for Info - File # 0901-EX-ST-2021

---

Message:

In response to the request to make corrections on the coordinates for all new locations, there is some confusion: the coordinates originally specified in the application are correct and none has changed. The application as originally filed specified the correct coordinates and the locations corresponding to those coordinates.

However, in earlier correspondence (62387) dated June 3, 2021, the request was made to enter a city for each location on the application. We responded to that on June 14, 2021 by specifying the community located nearest to the coordinates where the tests will take place. There was no change in any of the test locations and there is no change in any of the coordinates originally specified in the application for any location.
