As just discussed, the only other FCC licenses/authorizations held by TerreStar are three private microwave licenses and a "letter of intent authorization." Applications to assign the private microwave applications to TerreStar License Inc. (copy attached) were filed on February 4 and granted on February 5. A letter notifying the Commission that the letter of intent authorization has been assigned to TerreStar License Inc. (copy attached) also was filed on February 4.

Please call (202-429-4900) or reply to this e-mail if you have any further questions.

Mr. Godles,

Besides the Control Assignment application filed with the FCC Experimental Licensing Branch, are there any other Control Assignment applications that are pending or will be filed with other FCC bureaus?
