Subject: Request for Info - File # 1592-EX-ST-2016

---

Message:

- Purpose of experiment in details

A Navy provided control station connected to the SeaLancet (RT-1944/U radios referenced within the STA application) will communicate over the air to another identical Navy provided control station connected to its own SeaLancet radio. This is data communication with no voice communications. The expected traffic is ethernet traffic up to 3.5Mbps

- If it is used for Navy, please submit Navy information including contract number, point-of contact with name and telephone number.

Navy Contract # - N00024-14-C-6322

KO POC - Kevin D. Seger

KO # - 202-781-0894

- Location including latitude/longitude, city/state.

Latitude - 39.468223

Longitude - -76.641017

Cockeysville, MD 21030

- If it is flight test, please provide flight level.

This is not a flight test.

- Who will be the point-of-contact if interference occurs?

Stanton Tam
