Subject: Request for Info - STA File #0500-EX-ST-2017

Message:

Please address these FAA issues:

The FAA does not concur with the use of unlicensed spectrum for controlling the avionics in a balloon.

What is controlling the balloon? Is there a pilot on board or is it remotely controlled? If remotely, what is the frequency of the controlling signal?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 04, 2017 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
