The Boeing Company
Mr. Allen Lindsay
Global Spectrum Management
(Formerly, Frequency Management Services)
Spectrum Manager/ Civil & DoD Programs

Dear Ms. Mc Neil;

Aviation Spectrum Resources Inc. (ASRI) concurs with the request by The Boeing Company to operate on an aeronautical enroute datalink test station.

Here are the specifics of the station:

OBJECTIVE & TEST DESCRIPTION

These frequencies are requested to support /validate VDL lab testing and end to end system operation and to receive one weather report and a couple of emails a week to check system functionality.

OPERATION OVERVIEW

Manufacturer:	Rockwell Collins Inc
Model:	VHF-4000
Frequencies:	M136.975 MHz
Emissions:	14K00G1D
Effective Radiated Output:	20 W
Station Class:	FX

STOP BUZZER POINT OF CONTACT:

Stanley Chung, 405-397-3041

LOCATION:

Kent, WA
47-24-55 N; 122-15-38W
Radius: 1Km

ASRI concurs with use the specified frequencies by the Boeing Company with the following conditions:

- The Boeing Company shall cease operations immediately if interference or adverse network effects are reported by existing users.
- Voice operations are secondary to existing and future users.
- ASRI has confirmed use of this frequency with existing datalink service providers.
