1301 W. Green St.
Urbana, IL 61801-3070

16 February 2021

To whom it may concern,

The purpose of this letter is to request an amendment to our FCC Experimental License Application (0006-EX-CN-2021) for a 915 MHz wind profiling radar. I apologize for the confusion about the desired operation area.

We would like to amend our application to request an operation area that includes the lower 48 contiguous US states.

Sincerely,

A handwritten signature in black ink, appearing to read 'Stephen W. Nesbitt', written over a light gray rectangular background.

Stephen W. Nesbitt
