Subject: File Num#0739-EX-CN-2018 reminder on FAA pre-coordination data request

---

Message:

The FAA spectrum coordination request was submitted to the FAA on 9/19/18. To date, FAA spectrum has approved 2 of the 12 coordination requests. A query was sent to FAA spectrum asking about the status of the other 10 requests but a response has not been received yet.

We would like to request additional time to obtain FAA spectrum coordination.

Thanks

Joe
