Subject: Request for Info - File # 0840-EX-CN-2020

---

Message:

This request is to use frequencies for antenna testing at the St Charles Boeing Outdoor Antenna Range, using an Agilent signal generator. This is a second attempt after the first submission was dismissed (first submission that was dismissed- EL411204/0633-EX-CN-2020). There are no SATCOM terminals or satellites being used for this test, as it is specifically for antenna testing using a horn antenna.
