Subject: Request for Info - File # 0949-EX-ST-2018

Message:

System will be communicating through TDRS. TDRS control stations are throughout CONUS. Main control station will be Cape Canaveral, FL (~28°36'29.6"N 80°36'14.9"W)
Max Flight Level will be 400km (dependent on location of International Space Station).
I am not sure Radius is applicable in this license as the space craft will launch from FL and be in space within a matter of minutes with all communications coming from TDRS.
