

### **Reason for Short Notice**

Application was originally filed on September 17, 2019 under File # 1749-EX-ST-2019. It was assigned a callsign of WP9XHO. Payment for the application was attempted the same day, but was unsuccessful due to an issue with the FCC payment system.

Multiple phone calls and voicemails were made to correct this issue, as well as an email sent to [ELB@FCC.gov](mailto:ELB@FCC.gov). After following up again via email, we finally received a response on September 25, 2019. See application attachment **RE\_ File # 1749-EX-ST-2019.pdf**. The email stated that there was nothing that could be done, and we needed to refile.
