---

Message:

The MAG coordination was done for a testing being run by the Boeing Mesa, AZ site. The actual testing will be conducted on a testing strip we own in the Queen Creek/San Tan Valley area. Coordination with the MAG was conducted using the information on the "Description" attachment on this application.

Technically you are correct. The coordinates are in San Tan Valley, AZ. Queen Creek, AZ is the neighboring city, and closest most populated area. The coordinates are correct, however we can change the city name on the application to San Tan Valley.
