Dear Matt Cheetham,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 210187 is assigned an FAA Coordination number NG T210185 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: SECTOR BLANKING REQUIRED FOR 27-47, 170-190, AND 318-338 DEGREES TRUE NORTH.

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 10/2/2021; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T210185
Frequency	M1359.2200
Upper Frequency	M1374.2200
City	CHAMBERSBURG
State	PA
Transmitter Latitude	395918.00N
Transmitter Longitude	0774057.00W
Antenna Height	0005
Receiver Latitude	395918.00N

Receiver Longitude	0000000.00W
Equipment Type	C,JHU C0958-800
Antenna Type	REFLECTOR

Best regards,

FAA Spectrum Engineering Services
