

Behnam Ghaffari,

We are a non-profit Federally Funded Research and Development Center that supports the Department of Defense. As part of that support we are required to transmit over different satellites in support of several different projects. The contract we have with the Air Force for this support is a five year contract so to prevent us from having to renew our FCC license every two years we are requesting a 60 month experimental license. The contract number with the Air Force is shown below.

Item 2a. CONTRACT NUMBERS and Periods of Performance (PoP):

BASIC YEAR CONTRACT: FA8721-09-C-0002; PoP 1 DEC 08 to 30 SEP 09

Subsequent option years issued under Continued Contract Numbers as follows:

OPTION YEAR ONE (1):	FA8721-10-C-0001:	PoP 1 OCT 09 to 30 SEP10
OPTION YEAR TWO (2):	FA8721-11-C-0001:	PoP 1 OCT 10 to 30 SEP11
OPTION YEAR THREE (3):	FA8721-12-C-0001:	PoP 1 OCT 11 to 30 SEP12

Item 4: Previous contract was Two-Month Bridge Contract FA8721-09-C-0001 with a PoP of 1 OCT 08 to 30 NOV 08. It was executed upon the expiration of the prior FY04-FY08 full effort under basic contract number FA8721-04-C-0001 and its subsequent option periods FA8721-C-05-0001, FA8721-C-06-0001 FA8721-C-07-0001, and FA8721-C-08-0001, to avert disruption of MITRE engineering support services during the interim between the prior contract expiration and the new contract award.
