FCC / Behnam,

Good morning. I was unable respond to this correspondence within the 30 day window when the website was down during the government shutdown. When attempting to respond today through the Experimental Licensing System Correspondence Page, I am getting the error message: "**There is not a.**"

Is there a different reference number and confirmation number that I should be using in this case? I do not have any other reference or confirmation numbers in my documents for this filing.

Below is my response to the original email:

The purpose of filing for an amendment for 0250-EX-CM-2018 call sign WJ2XJF was to add an additional site at the Naval Surface Warfare Center, Lake Glendora Test facility in Sullivan, IN. The previous amendment added the Analog voice (2K80J3E) designator.

The hardware, power output, emission designators, and spectrum requests are identical to the other two site already approved (Bedford, MA and Stockbridge, NY).

Best Regards,
