

Memorandum for Record

Subject: Changes from Existing STA

Ref A: STA file number 1157-EX-ST-2013

Ref B: STA file number 0948-EX-ST-2013

1. We submitted this new STA (Ref A) to support the addition of a backup experiment area to allow some flexibility to our aircraft provider. The only change from the original STA (Ref B) was the addition of this new location. The transmitter and antenna hardware remain the same.

2. The Stop Buzzer POCs for this location are the same as for Ref B:
