Re: FCC file#0,476-EX-PL-2015,ITU Filing Cost Recovery

Dear Mr. Hill,

The University of Texas at Austin has made a submission for an Experimental License request in association with its Low Earth Orbit satellite, known as Atmospheric Related Measurements and Detection of subILLimeter Objects (ARMADILLO). ARMADILLO will have certain ITU "cost recovery" implications.

The University of Texas at Austin accepts that the FCC will impose cost-recovery processing fees for the ITU filing, notwithstanding that the amount and timing of the fees cannot be exactly determined at this time. The University of Texas at Austin acknowledges that it is responsible for any and all cost recovery fees that the ITU filing will incur.

If you have any questions regarding the foregoing, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Linda Shaunessy".

Linda Shaunessy
