

LandSea Systems utilizes the Inmarsat terminals listed for demonstration and training of Inmarsat technology for our commercial, government and military customers. The designated terminals are installed in our Virginia Beach facility and represent both the vintage and current portable, vehicular, maritime and aeronautical terminals used by our customers. Landsea Systems is the authorized Certified Service Center for the Western Hemisphere for the terminal Manufacture, Thrane & Thrane. In this capacity, LandSea Systems also utilizes the terminals listed for testing and customer support.
