

Exhibit 1

TrellisWare Technologies, Inc. is requesting an FCC experimental license to fulfil the requirements of a government contract with the United States Government.

Agency: Defense Advanced Research Projects Agency (DARPA) via Air Force Research Laboratory (AFRL)

Contract #: FA8750-20-C-0241

Contract Title: DARPA Network UP Phase 2 Option

Government POC: Jay Livingston; 571.645.4305; jay.livingston.ctr@darpa.mil

Narrative Statement: TrellisWare Technologies, Inc. is currently under a contract with AFRL in support of the DARPA Network UP program. The objective of this contract is for the development and prototyping of innovative spectrally efficient technology. As part of efforts under this contract, fixed and mobile tactical system test demonstration is required to test the Barrage Relay Control Channel (BRcc) Radios at UHF.

TrellisWare is respectfully requesting a license to allow testing and characterization at UHF.
